COLEMAN® 13 SEER SINGLE PACKAGE HEATING & COOLING SYSTEMS

Save Time and Energy.

Finally, an all-in-one gas heating and electric cooling system that offers affordable, easy installation and service, while delivering outstanding energy efficiency.

Outfitted for Performance.

Look to Coleman's® 13 SEER Single Package unit for excellent efficiency all summer. With ratings of 13 SEER and 11.7 EER, you can count on high-efficiency performance. And for lower heating costs, the 13 SEER Single Package unit also offers ratings of up to 80% AFUE.

Step up to Better Energy Efficiency.

The Coleman® 13 SEER unit also provides a host of other energy-saving features. Variable-speed operation allows for quiet unit operation. And with ECM technology the 13 SEER's blower motor uses up to 50% less electrical energy than conventional blower motors. Plus, to maximize efficiency and reduce energy waste, the 13 SEER features a thermostatic expansion valve (TXV) which lowers utility bills and meets nationwide energy efficiency standards.

All-in-One, Anywhere Installation.

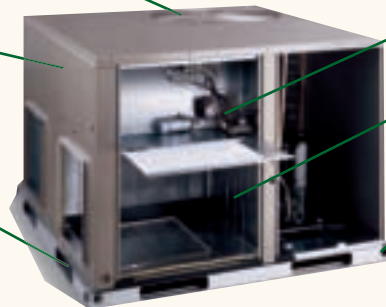

To save time and materials, the Coleman® 13 SEER allows for minimal fitting, cutting, and adjustment. And for flexibility, the unit is designed for easy installation on a rooftop or ground-level slab.

Top discharge carries noise up and away from the structure and landscaping

Top panel "drip edge," "water shed" design provides protection against corrosion

Removable full-perimeter base rails with rigging holes and fork lift slots for easy installation

Durable powder-paint finish meets demands of 750-hour salt-spray test to resist fading

Reliable time and temperature defrost control to protect against high pressure and temperature

Foil-faced insulation to ensure better indoor air quality

Externally mounted high and low pressure ports for easy servicing
