

Single-Piece and Modular Air Handlers

Every Moment Deserves Coleman® Comfort

Comforteer™ Series

Heating & Air Conditioning

Comforteer™ Series Single-Piece and Mo

Air handlers and coils: Why you need them

An air handler is a vital piece of your comfort system. Your system has two parts—the outdoor unit and the indoor unit. The air handler is the indoor unit that is responsible for circulating air throughout your home. Inside the air handler are a fan and an evaporator coil. When these two components are properly matched, you'll enjoy money-saving efficiency, improved comfort, and years of trouble-free service.

Single-piece Models

Packed with Features in a Single-piece.

Comforteer Single-piece models include both a blower and an evaporator coil in one compact cabinet so you don't feel cramped for space. It's packed with features that make a difference in how you feel:

- Get maximum efficiency with our advanced refrigerant metering device—the thermostatic expansion valve (TXV)
- Save more energy with a 3-speed, direct-drive blower
- Feel environmentally friendly with optional R-410A refrigerant
- Enjoy quiet motor ramp-up and ramp-down that eliminate harsh stops and starts
- Extend service life with the pre-painted steel cabinet featuring full insulation to prevent condensation and corrosion

*AHP Series Upflow or Multi-position Air Handler
SHP Series Upflow Air Handler*

Modular Air Handlers

Designed to Fit Varying Needs

Comforteer Modular air handlers can match all kinds of comfort needs with two types of configurations. MV models come with variable-speed motors to supply the exact amount of conditioned air you need—no more, no less. MA models offer direct-drive, 3-speed blower motors to offer your application an economical solution.

- The MV series qualifies for a Federal energy tax credit
- With an Electronically Commutated Motor (ECM), an MV model offers better humidity control, efficiency, and indoor air quality by circulating air more evenly and 24 times more quietly than a single-speed design
- An MA model lets you match your comfort requirements very closely by offering low, medium, and high settings
- Both models feature pre-painted steel cabinets with full insulation to prevent condensation and corrosion to extend service life

*MV Series Variable-speed Modular Air Handler
MA Series Multi-speed Modular Air Handler*

Modular Models

Coils you can count on

Because evaporator coils are an integral part of every air handler, we offer a wide range to match your particular system. Engineered for outstanding durability and exceptional heat transfer, these high-quality coils deliver the comfort you deserve.

- Environmentally friendly R-410A and proven R-22 refrigerants are available in select coils
- Positive-sloped drain pans eliminates standing water that could breed germs
- MicroBlue™ coating on coil fins keeps germs and moisture off the coil and out of the air
- Optional thermostatic expansion valve (TXV) provides optimum coil performance

Warrantied for years of comfort

Every Coleman® system is backed with the best limited warranties available:

Standard Warranty

(10 years on total parts can be purchased separately)

5 years on parts.

Financing plans that feel right

Ask your Coleman® HVAC dealer about easy financing options.

Applying is easy, and upon approval, you'll enjoy low monthly payments, special financing offers, and no annual fee!

How comfortable is your wallet?

By matching your Coleman® system with other Coleman® equipment, you will maximize energy efficiency and likely qualify for various rebates and tax breaks. Ask your Coleman® dealer about rebates offered in your area. And, ask about Coleman® central air conditioning systems, heat pumps, fans, filters, IAQ equipment and advanced controls to complete your system. Talking to your dealer will keep you informed, save you money and time, and protect your family's health—all part of Coleman® Comfort.
